CAREER HIGHLIGHTS

- **Deloitte & Touche** (2000 – 2004) as Director of Environmental Assurance Services, with the mission of managing a new national service line within its U.S. Audit and Advisory services practice, and a senior manager in its forensic practice within Financial Advisory Services.
- **Price Waterhouse/PwC** (1990 – 2000) launching, leveraging, and managing a specialty consulting practice and providing advisory, risk consulting, marketing, investigative, forensic, fraud, and litigation support.
- Diverse and successful career spanning engineering, research and development, operations, technical consulting and regulatory analysis, project management, business development, practice building, and senior management consulting experience, including 14 years in financial auditing and advisory services. Solid record of providing creative and on-point internal and analytical expertise to audit and engagement teams of *Fortune 500* companies, and in minimizing environmental financial risks and exposures, within a variety of industries and service businesses. Industries served include *Fortune 500* energy, manufacturing, chemical and pharmaceuticals firms, insurance companies, law firms, power and utility companies in assessing business, market and regulatory risks including complex portfolio and litigation issues.
- **Executive MBA** from **The Wharton School**, coupled with both **B.S. and M.S. degrees in Chemical Engineering**. Strong strategy, organizational, communications, project and people management skills, with proven business and analytic acumen, knowledge transfer and risk assessment abilities. Post-graduate, executive courses at **Wharton** in Strategic Planning and Value Creation.
