

EXPERT VITAE

Richard Stripp, Ph.D.

132 Cove Road Huntington, NY 11743

rstripp@forensictox.com

Education

St. John's University, College of Pharmacy and Allied Health Professions
Jamaica, New York 11439

Ph.D., Pharmacology & Toxicology Specialization, 1993

MS., Forensic Toxicology Specialization, 1988

BS. Toxicology (minors in Chemistry and Biology), 1983

Toxicology Laboratory Certifications

New York State Department of Health Laboratory Director Certificate of Qualification

- Clinical Toxicology
- Forensic Toxicology

State of New Jersey Board of Medical Examiners

- Bioanalytical Laboratory Director-Toxicology

Professional Profile & Current Faculty Appointment

The City University of New York 2001-Present

The John Jay College of Criminal Justice &

The Graduate Center of The City University of New York

Criminal Justice Doctoral Program, Forensic Science Program

Tenured Assistant Professor of Forensic Toxicology

New York, NY

List of the courses presently taught:

Forensic Toxicology

Toxicology

Analytical Toxicology

Forensic Pharmacology

Clinical Toxicology

Toxicology of Environmental and Occupational Chemicals

Current Position

Chief Scientific Officer
Sterling Healthcare Services
Huntington, NY 11731

12/12-present

Serve as the Chief Science Officer (CSO) providing overall leadership and direction to five Enterprise toxicology laboratories located in Tacoma WA, Huntington, NY, Denver, CO, Flagstaff, AZ, and Worcester, MA. The Chief Scientific Officer oversees the all the scientific and technical

functions of this nationally recognized toxicology testing company, including basic and applied research projects, as well as the development of new processes, technologies and products. As the most senior scientific executive, the CSO reports directly to the CEO and Board of Directors. The CSO utilizes discipline-specific knowledge and strong leadership and business skills to promote the efficiency, profitability and competitive position of the company.

Chief Scientific Officer Job Duties

- Assure that the company remains competitive and maintains a cutting edge, state-of-the-art approach to toxicology testing.
- Keep the enterprise up-to-date on all technological advances and industry trends
- Advise the Board of Directors and senior management on all scientific matters. This may include making recommendations on future projects, new research opportunities or technological ventures.
- The CSO coordinates and oversees all company related research and development activities
- Provides leadership to the senior laboratory directors and R&D personnel
- The CSO is responsible for recruitment of qualified senior scientific personnel and researchers
- The CSO serves public relations functions by representing the scientific goals and interests of the company at scientific meetings, clinical functions and related events.
- Serves as the senior resource for scientific educational programs for the enterprise
- The CSO establishes and maintains advantageous relationships with government, academia and related industry.
- Provides oversight and direction to the Technical Advisory Board

CEO & Laboratory Director
American Forensic Toxicology Services, Inc.
East Northport, NY 11731

09/09-12/12

Directing all aspects of a clinical and forensic toxicology practices and serve as an expert consultant in the field of toxicology and pharmacology to attorneys, investigators and physicians involved in forensic and clinical toxicological evaluations associated with ethanol, drugs and chemicals. Provide expert unbiased case reviews involving drugs of abuse, iatrogenic/ therapeutic agents, lead and other toxic metals, carbon monoxide and environmental/occupational hazards. Providing services related to all aspects of forensic, clinical, environmental, and general toxicology including, impartial evaluations involving drug effects, overdose, toxic chemical exposure, medical malpractice associated with drug therapy, poisoning, and the role of drugs, alcohol, or chemical exposure in civil and criminal litigation. This covers a full breath of forensic medical-legal cases:

- Direction of all Laboratory Operations
- Review and Approve Toxicology Reports
- Consult with Clinicians Regarding Toxicology Results
- Serve as an Expert Witness: Experienced in Depositions and Court testimony
 - Forensic Toxicology Case Reviews
 - Litigation Support
 - Workers' Compensation
 - DUI/DWI

- Drug and Alcohol Effects
- Pharmacology Evaluations
- Environmental/Occupational Chemicals & Toxic Chemical Exposure
- Interpretation of Analytical Results and Drug Testing Cases
- Continuing Education and Lectures
- Chemical and Product Safety

Other Professional Experience

St. John's University
School of Pharmacy & Allied Health Professions
Visiting Associate Professor of Toxicology
Jamaica, NY 11439 1993-present

Long Island University
Arnold & Marie Schwartz
College of Pharmacy and Health Sciences
Assistant Professor of Toxicology and Pathophysiology
Division of Pharmacology, Toxicology and Medicinal Chemistry
75 Dekalb Avenue
Brooklyn, NY 11201 1994-2001

United States Department of Homeland Security (formerly DOE)
Research Toxicologist
New York, New York 10014-3621 1985-1994

Formulate, design, and direct investigations intended to determine the fate and effects of potentially toxic chemical agents, which result from energy related activities by using biomolecular and biochemical markers. The classes of contaminants studied include various heavy metals, organics, and radionuclides. Serve as the Principle Program Director responsible for the development of the scope and direction of the Laboratory's biological investigations including: planning, organization and performance of field investigations; arrangement for the biochemical and biological analyses of appropriate samples; evaluation of the quality of the analytical results; determination of the significance of the data to the research programs objectives; and dissemination of the relevant findings as written reports for peer-review publication or oral presentation at scientific symposia. Serve as an expert consultant in the field of toxicology to scientists with other Federal Agencies, D.O.E. officials, and academic organizations.

New York City Office of the Chief Medical Examiner
Chemist-Toxicology
New York, New York 10016 1983-1984

Performed the methods of forensic toxicological analysis of human samples collected at autopsy used to determine the role of drugs and other toxic chemicals in establishing the cause of death for medico-legal investigation. Determination of blood and brain alcohol concentrations.

Courses taught at other Institutions:

Methods of Toxicology, Biochemistry, Clinical Toxicology, Forensic Toxicology,
Analytical Toxicology, and Principles of Toxicology

St. John's University (9/93-present)

College of Pharmacy and Allied Health Professions, Jamaica, NY 11439

Pathophysiological Basis of Clinical Practice, Pathophysiology for Physicians Assistants
State University of New York

Downstate Health Sciences Center-School of Health Professions

Brooklyn, NY 11203

Pharmacology, Human Anatomy & Physiology

The City University of New York, Queensborough Community College

Queens, NY

PROFESSIONAL & UNIVERSITY ACTIVITIES

Member of the American Pain Society

Member of the American Academy of Clinical Toxicology

Member of the National Institute of Justice Peer Review Panel in Forensic Toxicology

The International Association of Therapeutic Drug Monitoring and Clinical Toxicology

Served as a Moderator for a Criminalistics session at the Academy of Forensic Sciences
Meeting. New Orleans, LA 02/05.

Appeared on various media outlets as an expert in poisoning cases presented.

President's Advisory Committee on Graduate Studies

New Directions Subcommittee of the President's Advisory Committee on Graduate
Studies

Forensic Science Personnel and Budget Committee

Forensic Science Departmental Committee on Instrumentation

Forensic Science Department Curriculum Committee

Forensic Science Committee to Hear Appeals

Member of the Forensic Science Academic Standards Committee

Member of the Forensic Science Instrumentation Committee

Chairman of the Committee to Develop the Forensic Science Department 5 year
Strategic Plan

Additional Training Courses Completed

Agilent GC/MS Training 2009

Thermo Scientific Corporation Onsite Trace DSQ, GC/MS Training Course 2006

FBI Laboratory Symposium Washington D.C.

Basic Forensic Toxicology I, II, III

Chemical Terrorism and Forensic Toxicology 2004

Perkin Elmer Corporation Danbury, CT

Atomic Absorption Spectrophotometry Training Course 1987
