

Dr. C.J. Abraham

PhD, JD, PE, DPE, CPC, FRSC, DEE, IH
FTI, BCFE, DCEE, CChE, CChem

Over the last 45 years, C. J. Abraham has been awarded over 50 patents and has created warnings and instructions for many products and protocols applied and used worldwide. He has consulted to major news channels, NHTSA, OSHA, NIOSH, State of California (CalTrans), Microsoft, New York Transit, Queensborough Bridge Authority, Department of Agriculture, the Federal Government, office of the United States Attorney, State Attorney General's Offices, and municipalities throughout the United States, Canada and Europe in a variety of technical areas.

Dr. Abraham is also the author of over 100 publications and presentations. His current interests are in the areas of head and brain protection in sports and recreation and personal injury accidents and litigations. In addition, he is also involved in the reconstruction of all types of sports injuries in a large variety of recreational and sports activities, amusement parks, sports facilities, as well as accidents involving a variety of products and vehicles.

Dr. Abraham has over fifty years of experience in polymers and has extensive testing experience in the absorption and dissipation of forces of every type of polymeric material used in headgear. A more detailed description of his background may be found at www.scientificadvisory.com. He has invented and commercialized many products. One of his facemask products essentially eliminated quadriplegics and paraplegics in young children playing football. The facemask was licensed to Riddell and resulted in making it safer for young children and teenagers participating in football.

In the past, Dr. Abraham was a United States representative to the International Standards Organization (ISO), a member of the Executive Board of the Hockey Equipment Certification Council (HECC), a member of the Safety and Protective Equipment of USA Hockey. He has also been an active member of the American Society of Testing and Materials (ASTM) from 1964 to the present time participating in the creation of safety standards for all types of recreational activities and sports. He is also a Diplomat in Sports and Recreation Safety, a Senior Member of The National Academy of Forensic Engineers and is qualified an OSHA specialist in safety and safety engineering.

Currently, Dr. Abraham is the inventor of the most universal headgear ever invented-the ForceField FF Protective Headgear. The use and applications of that headgear is found at www.forcefieldhandbands.com. As a result of Dr. Abraham's involvement in personal injury and litigation cases, many products, including recreational and sports activities, have been made safer.
